 **ZYNIX
ROBOTICS**
A division of zyverce

Our Mission

Transform education and industry through hands-on training in ai, robotics, iot, electronics, software development, and technical trades, creating a skilled workforce that drives technological future.

Our Vision

To create a community of technologically skilled, innovative, and future-ready learners by promoting advanced technology education and practical skill development across all levels of learning.

Why Us ?

- Experienced & Passionate Instructors
- Support for Independent Projects
- Transparent Parent Communication
- Guaranteed Practical Projects
- Supportive Learning Community for Continuous Growth
- Affordable & Flexible Learning Packages
- Course Orientation and Explanation Provided to Supporting Staff

Key Features

-  Hands-on, activity-based learning
-  Real-time project based training
-  Complete Robotics kits included
-  Comprehensive study materials provided
-  Expert and passionate instructors
-  Customizable course modules
-  AR/VR immersive experience for students
-  Supportive learning community
-  Practical assessment & project evaluation

COURSES & SERVICES

AI, Robotics, IoT & Electronics Courses

Hands-on training from basic to advanced levels

Teacher Training Programs

Practical AI & robotics training with mentoring support

Robotics & AI Lab Setup For Schools & Colleges

Complete lab setup with equipment & curriculum support

Cohort 360 Attendance Monitoring System

Smart attendance with reports and parent alerts

Website & App Development

Responsive school websites and mobile apps

Python, Flutter & MERN Stack

Full-stack and mobile app development training

Workshops & Skill Programs

Short-term hands-on technical workshops

Internship Programs

Certified real-time project internships with specializations
